01 About greenset

At greenset, we are the global leader in designing, manufacturing, and installing premium tennis, padel, pickleball, and multi-sport courts.

We combine sustainable practices with innovative craftsmanship to deliver high-performance, cutting-edge courts that set the standard for excellence in design and quality.

greenset operates through **four specialized divisions**, each dedicated to delivering excellence in sports surfaces.

02 Mission, vision and values

MISSION

greenset is dedicated to designing, manufacturing, and installing premium sports courts that set the standard for quality and performance. We strive to enhance the playing experience by focusing on innovation, sustainability, and exceptional customer service, fostering the growth of racket sports worldwide.

VISION

To be the global leader in racket sport court solutions, transforming sports facilities with innovative, sustainable, and high-quality courts that inspire athletes, clubs and communities to reach their greatness.

VALUES

greenset is committed to performance, quality, and sustainability, delivering engineered courts designed for top athletes. With superior surfaces, eco-friendly innovation, and premium service, it remains a global leader, trusted by major tournaments, training centers, and professional organizations worldwide.

03 Brand history

greenset is the global leader in designing, manufacturing, and installing premium tennis, padel, pickleball, and multi-sport courts.

We combine sustainable practices with innovative craftsmanship to deliver high-performance, cutting-edge courts that set the standard for excellence in design and quality.

1970

greenset is founded. Becomes a pioneer in advanced resins and tennis court technologies.

2000

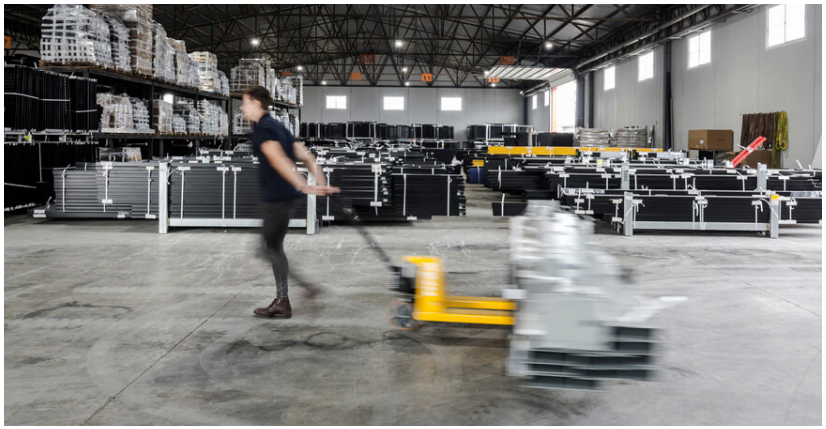
Acquired by former ATP professional Javier Sánchez Vicario, starting a period of growth and enhanced expertise.

2005

Key inflection point to become over the next decade the global leader in court surfaces, chosen for over 600 major tournaments including the ATP, WTA, ITF, and prestigious events like the Davis Cup and Olympic Games.

2010

The beginning of Padel Courts Deluxe journey and our passion for padel. The first courts saw the light, and our commitment to quality took shape.



2019

Appointed official court supplier for Tennis Australia, including the Australian Open, ensuring consistent surface quality across the best tournaments for the best players.

2022

greenset merges with Padel Courts Deluxe, a leader in padel courts, to create greenset Padel, strengthening their position in both tennis and padel court markets.

2024

We implemented cutting-edge robotic technology, revolutionizing court production and enhancing manufacturing efficiency.

Present

greenset.

Installed over 60,000 courts in more than 50 countries, serving top academies like Rafa Nadal Academy, national federations, and leading venues worldwide.

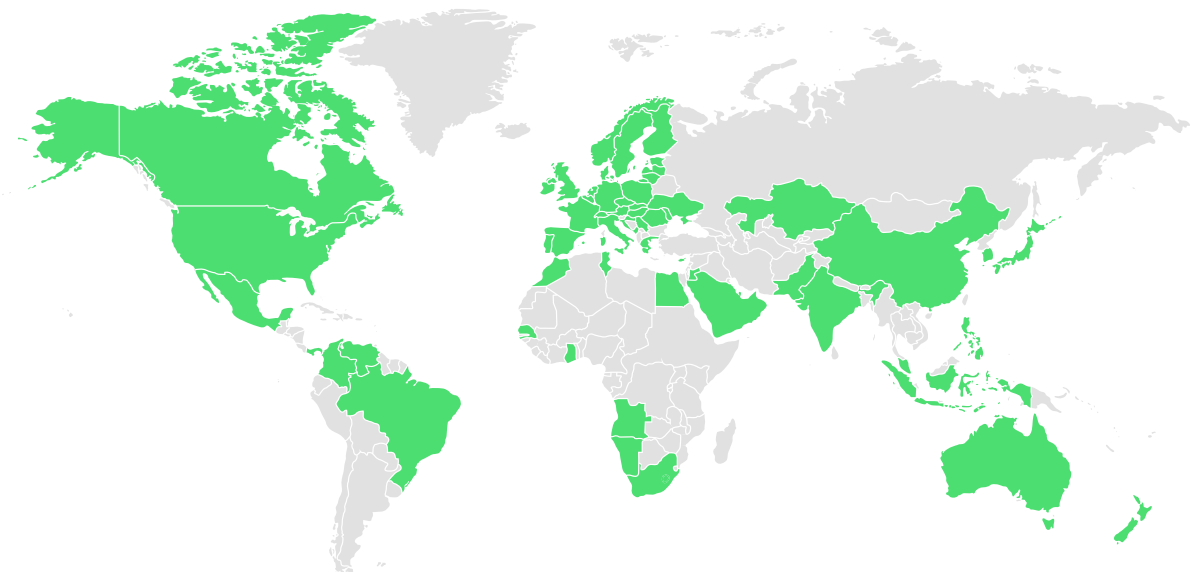
Across more than 50 countries worldwide, our courts have left a lasting impression, revolutionizing the experience.

From vibrant cities to serene countryside settings, our presence spans continents, bringing innovation and excellence to diverse communities.

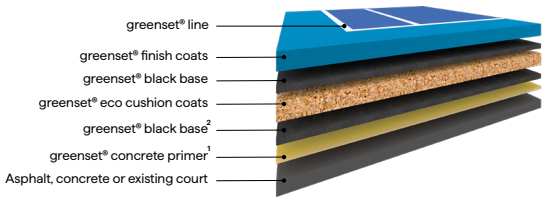
Explore the diverse locations where we can bring your court vision to life:

- Sports clubs and complexes
- Profesional tournaments
- Academies
- Hotels and resorts
- Residential communities
- Private houses
- Public centers



05 Our courts - Tennis

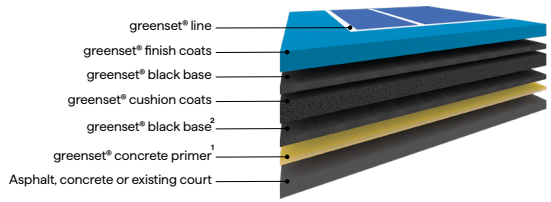
GRAND SLAM ECO COURT



1 Needed for concrete surfaces: use concrete primer, bonding coat or Resurfacer
2 Only needed for new asphalt

The Grand Slam Eco Court mirrors the experience of professional players. Its innovative shock absorbency with sustainable cork offers a unique feel. Our newest, most eco-friendly system.

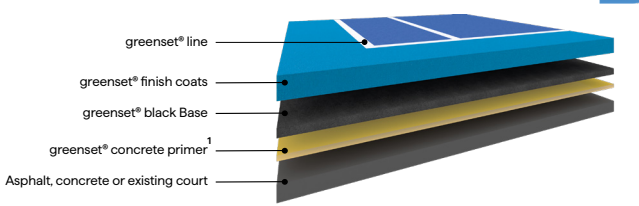
GRAND SLAM COURT



1 Needed for concrete surfaces: use concrete primer, bonding coat or Resurfacer
2 Only needed for new asphalt

The Grand Slam Court is the official surface of Australian Open. It is suitable for all kinds of players and game styles. Provides a high shock absorption and care for knee joints thanks to its layer of liquid rubber. It is the most used surface in elite private clubs and facilities. Play like a pro!

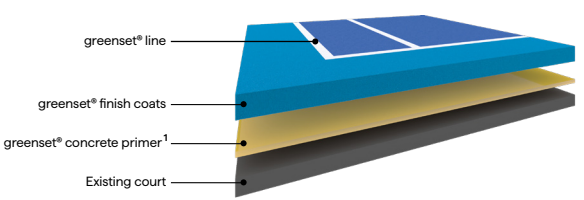
TOUR COURT



1 Needed for concrete surfaces: use concrete primer, bonding coat or Resurfacer

The Tour Court has helped young players worldwide to fulfill their dreams for over 50 years. Our best-selling surface is used in tennis academies, training centers and on the ATP and WTA tour.
The perfect court for all skill levels.

CLUB COURT



1 Needed for concrete surfaces: use concrete primer, bonding coat or Resurfacer

The Club Court is our version of the Tour court for reduced budgets. Mainly used for resurfacing of existing courts, this is our entry level court to experience greatness.

05 Our courts - Padel

Super Panoramic

CARBON

The first Super Panoramic padel court on the market with carbon fiber withstanding the biggest storms.

TECHNIC

This Super Panoramic Court is specially designed and developed for events and exhibitions.
Play like a Pro!

Panoramic

STEEL VISION

The only padel court on the market with a height adjustment system for a more accurate and safer installation comes with a panoramic view.

Standard

STEEL

The only padel court on the market with a height adjustment system for a more accurate and safer installation.

05 Our courts - Padel Customization

At greenset, our in-house production facilities allow us to offer fully customized court colors, crafted on demand to meet each client's exact specifications. Whether you're aiming to reflect a brand identity, align with a facility's aesthetic, or create a one-of-a-kind visual impact, we turn your ideas into reality with precision and care.

From concept to execution, every color is meticulously developed to deliver not only striking design but also the highest standards of durability and performance.
With greenset, your court becomes a true expression of your vision—unique, bold, and unmistakably yours. Crafted to perform, built to last, and designed to inspire greatness on every play.

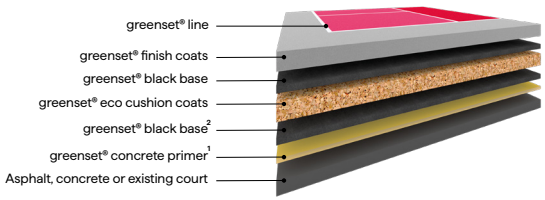
05 Our courts - Pickleball

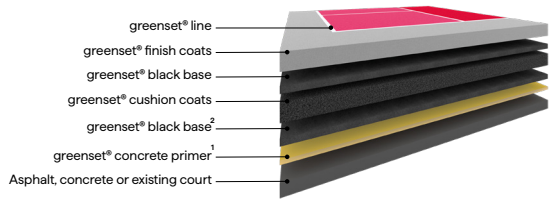
PICKLEBALL ECOCUSHION COURT



1 Needed for concrete surfaces: use concrete primer, bonding coat or Resurfacer
2 Only needed for new asphalt

The Pickleball Eco Cushion Court suits all players, combining speed, shock absorption, and sustainable cork for a unique experience that enhances performance while protecting knee joints.

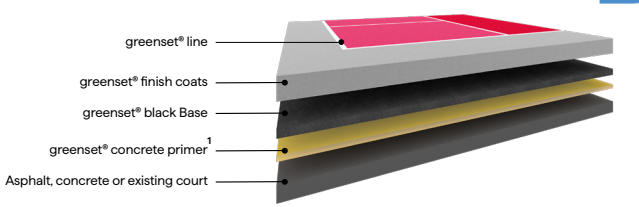
PICKLEBALL CUSHION COURT



1 Needed for concrete surfaces: use concrete primer, bonding coat or Resurfacer
2 Only needed for new asphalt

The Pickleball Cushion Court is suitable for all kinds of players and gamestyles. Provides a high shock absorption and care for knee joints thanks to its layer of liquid rubber. It is the most used surface in elite private clubs and facilities. Play like a pro!

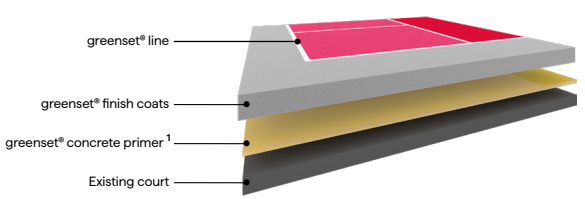
PICKLEBALL TOUR COURT



1 Needed for concrete surfaces: use concrete primer, bonding coat or Resurfacer

The Pickleball Tour Court has helped young players worldwide to fulfill their dreams for over 50 years. Our best-selling surface is mostly used in academies, training centers, and private facilities.
The perfect court for all skill levels.

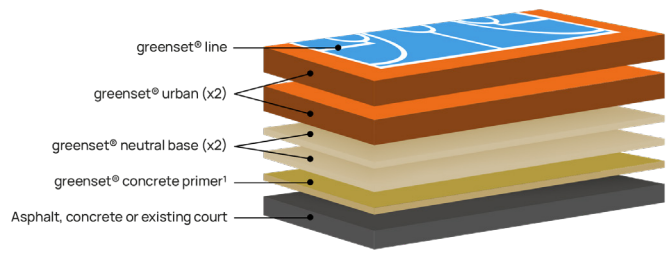
PICKLEBALL CLUB COURT



1 Needed for concrete surfaces: use concrete primer, bonding coat or Resurfacer

The Pickleball Club Court is our version of the Tour Court for reduced budgets. Mainly used for resurfacing of existing courts, this is our entry level court to experience greatness.

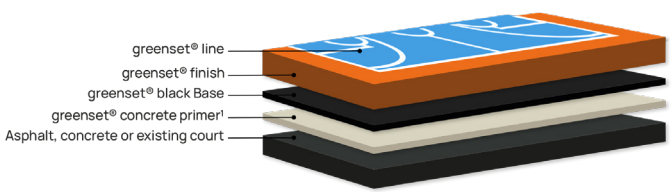
05 Our courts - Urban



1 Only for Concrete.

MULTISPORT URBAN COURT

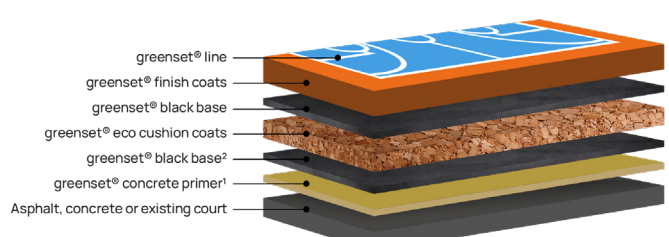
GreenSet® Multisport Urban is a high-quality, smooth acrylic coating specifically designed for continuous urban and sports pavements. Applied with roller, it provides a non-slip, wear-resistant surface ideal for sustainable mobility infrastructures and recreational areas.



1 Needed for concrete surfaces: use Concrete Primer

MULTISPORT TOUR COURT

GreenSet® Urban Multisport Tour is a top-quality, non-slip, wear-resistant and highly durable surface engineered for intensive urban use and multisport facilities. Final coat applied with squeegee for maximum resistance and consistent playing experience, indoors and outdoors.



1 Needed for concrete surfaces: use Concrete Primer.
2 Only needed.

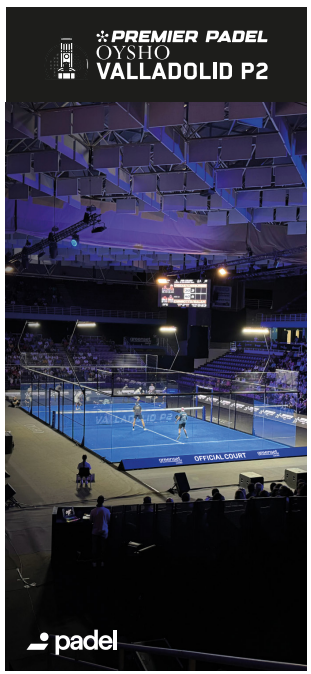
MULTISPORT ECO CUSHION COURT

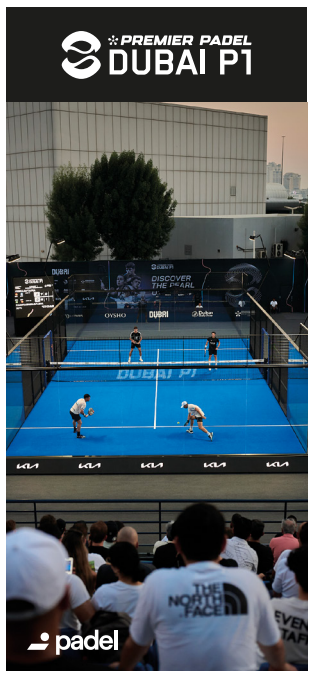
GreenSet® Multisport Eco Cushion Court is a top quality, non-slip, wear-resistant surface for tennis and multisport floors, indoor and outdoor. Developed in 1970 for moderate shock absorption and joint care. ITF classified as Medium to Medium-Slow. Most used in elite private clubs.

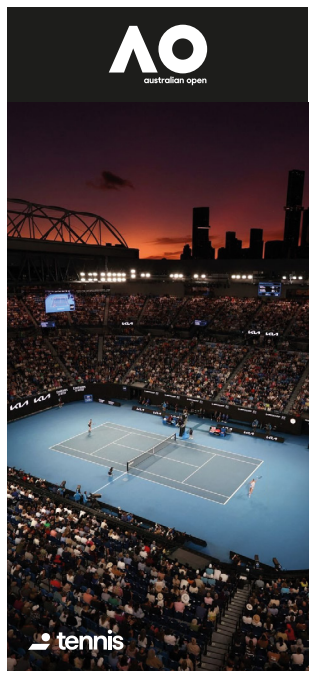
06 Special events

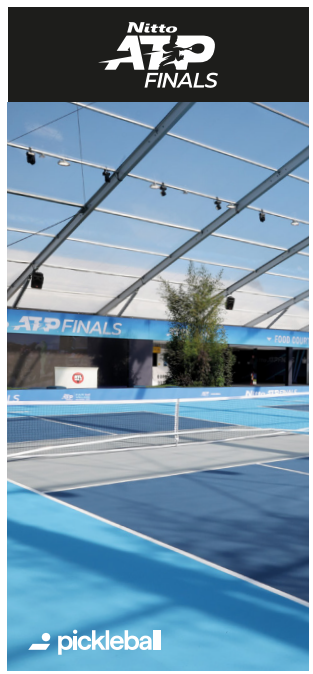
With over 50 years of experience our team of experts, client services, and state-of-the-art factories allowed us to build over 60,000 courts for the most reputable tournaments, academies and legendary players worldwide.

From the Australian Open and the Olympics to the Rafa Nadal Academy and Premiere Padel Tournaments, our surfaces are where champions train and compete. Our commitment to excellence and innovation ensures that every court we create not only meets but exceeds the expectations of elite athletes and prestigious institutions.



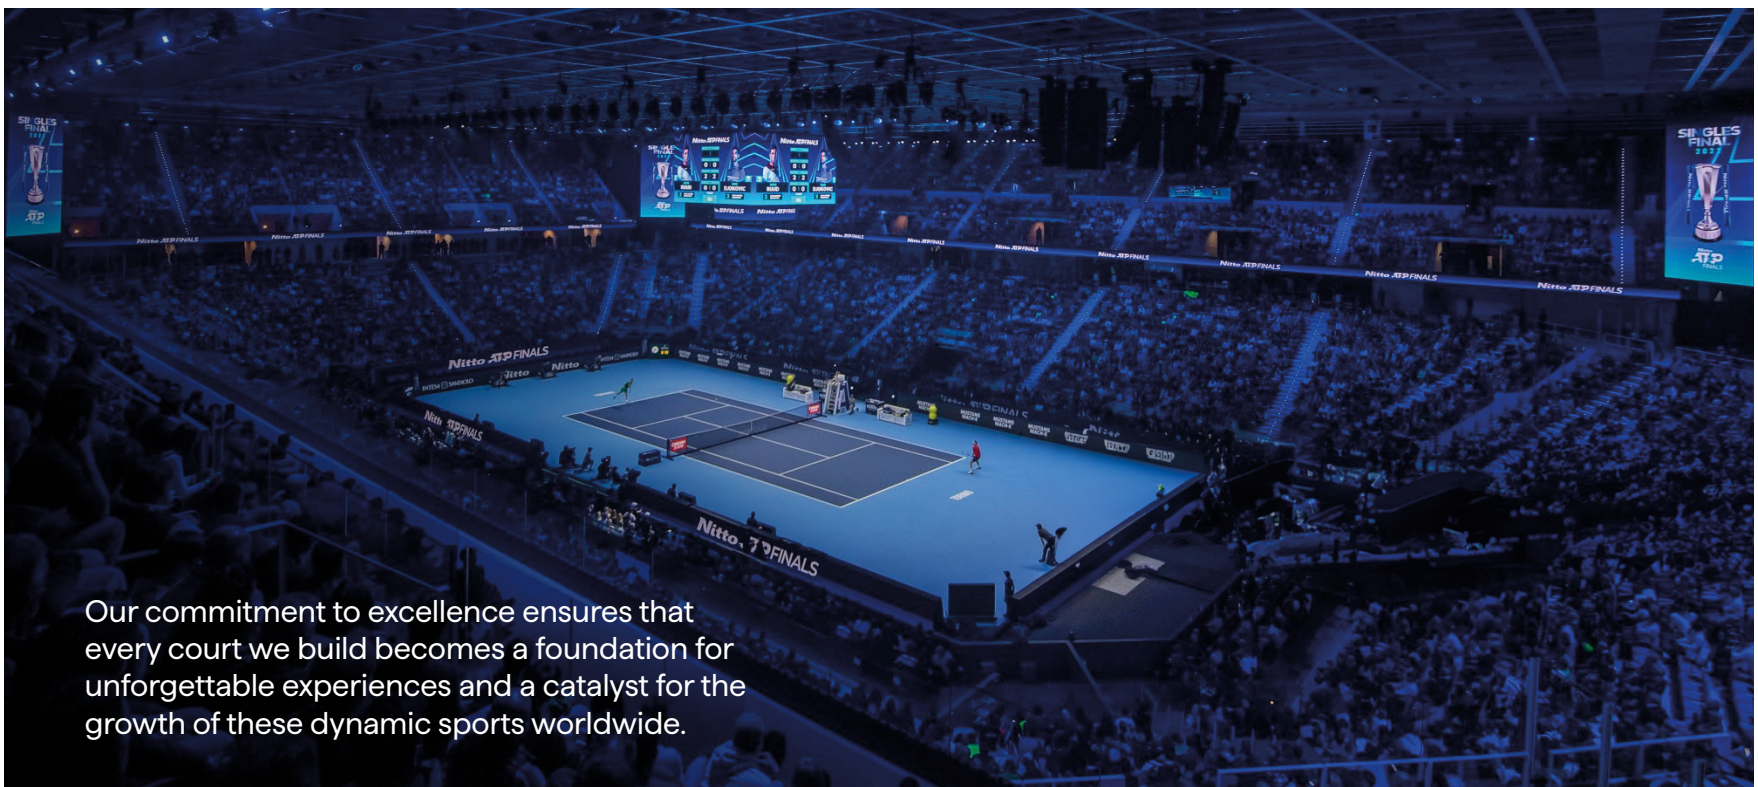






07 Expansion

At greenset, we envision a world where high-quality, expertly designed courts bring communities together and inspire a lifelong passion for racket sports. By crafting premier tennis, padel, and pickleball courts, we aim to set the standard for innovation, durability, and playability. Creating spaces where athletes of all levels can compete, connect, and thrive.



Our commitment to excellence ensures that every court we build becomes a foundation for unforgettable experiences and a catalyst for the growth of these dynamic sports worldwide.

08 Sustainability

greenset holds ISO 14001 for environmental management, ISO 9001 for quality standards, and ACTECO for sustainable waste management, ensuring eco-friendly practices, top performance, and a commitment to excellence in every project.

tennis

greenset EcoCushion

The EcoCushion court by greenset tennis offers top performance with an eco-friendly design. Certified with the Zero Footprint Certificate, it ensures sustainability while providing superior cushioning, player comfort, and reduced environmental impact.

greenset THERM technology

In **greenset** tennis, we experience the game like never before with **THERM, the advanced thermal reduction technology** designed to transform your tennis and pickleball experience.

75%
Reduction in thermal conductivity

THERM integrates proprietary **low-conductivity microspheres** embedded in the court structure, reducing thermal conductivity by up to 75% — **keeping the surface cooler and enhancing player comfort and performance.**

The greenset padel factory **covers 12,730 m² (137,024.58 sq ft)**, including **585 m² for offices**, **4,020 m² for manufacturing**, **1,750 m² for robotics**, **1,550 m² for painting**, and **4,825 m² for warehouse storage**. A state-of-the-art facility designed for innovation and excellence.

Sonic Shield Technology by greenset padel enhances acoustic performance by reducing impact noise, creating a quieter playing environment. This innovation improves sound absorption while maintaining greenset's high-performance standards.
